PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying scalable web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js) and Next.js. Experienced in developing RESTful APIs, implementing secure authentication, managing databases, and creating responsive user interfaces.

INTERNSHIP

Eazy ERP Technologies Private Limited

(Support Executive Intern)

May 2025 – Present

Gurugram, India

- Assisted in the implementation and support of ERP/DMS solutions for distributors, dealers, and business users.
- Worked with cross-functional teams to troubleshoot system issues and ensure smooth business operations.
- Managed user onboarding, data validation, system configuration, and workflow support activities.
- Contributed to client projects by providing application support, process documentation, and operational assistance.

Seoulx Technologies (OPC) Private Limited

(Software Engineer Intern)

November 2025 – February 2026

Remote, India

- Developed and maintained production-grade features in a Next.js application, improving performance and user experience.
- Built reusable frontend components and integrated backend APIs to support scalable business workflows.
- Collaborated with developers to implement clean, maintainable, and secure code practices.
- Contributed to real-world client projects using modern web development technologies.

Yuga Yatra Retail (OPC) Private Limited

(Software Engineer Intern)

September 2025 – November 2025

Remote, India

- Leveraged **Cursor AI and modern AI tools** to accelerate code development and improve debugging efficiency.
- Developed full-stack features using MongoDB, Express.js, React.js, and Node.js.
- Leveraged AI-assisted development tools to accelerate debugging and feature delivery.
- Result:** Contributed to real-world client projects and improved development productivity.

PROJECTS

AROGA – Online Healthcare Platform | ([Live](#)) ([Source Code](#))

October 2025 – December 2025

(Next.js, Tailwind Css, JavaScript, MongoDB, JWT, Socketio)

- Developed a healthcare platform enabling medicine ordering and doctor consultations. Implemented secure authentication, RESTful APIs, MongoDB integration, and role-based user management using Next.js.
- Built secure **authentication, order tracking, profile management and online support** using JWT, MongoDB, RESTful APIs and Socketio.
- **Result:** Streamlined access to healthcare services in underserved areas with a scalable, reliable web platform.

QuickChat – A real-time chatting application | ([Live](#)) ([Source Code](#))

September 2025

(React.js, Tailwind Css, JavaScript, Node.js, Express.js, MongoDB, Socket.io)

- Built a real-time messaging platform using React.js, Node.js, Express.js, MongoDB, and Socket.IO, supporting instant communication with JWT-based authentication and persistent message storage.
- Deployed frontend on Vercel and backend on Render.
- **Result:** Enabled live communication and deployed on Vercel (frontend) & Render (backend).

SkyNow – Weather Web Application | ([Live](#)) ([Source Code](#))

August 2025

(React.js, Tailwind Css, JavaScript, OpenWeather API, AQI API, and Geolocation API)

- Developed a React-based weather app integrating OpenWeather API, AQI API, and Geolocation API.
- Implemented responsive UI and real-time data fetching for accurate weather & air-quality insights.
- **Result:** Delivered a fast, accessible app providing real-time weather and AQI data with 99% uptime.

SKILLS

Languages: Java, JavaScript, Python, C.

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS.

Backend: Node.js, Express.js, REST APIs, Socket.IO.

Database: MongoDB, MySQL.

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render, Netlify.

Core Concepts: Data Structure & Algorithms, OOP, DBMS, Operating System, Software Engineering.

EDUCATION

BSA College of Engineering & Technology, Mathura (AKTU)

Uttar Pradesh, India

Bachelor of Technology – Major: Computer Science & Engineering

2022 – 2026

Percentage: 74.25%

CERTIFICATIONS & ACHIEVEMENTS

SQL (Basic) Certificate – HackerRank ([Link](#))

June 2026

- Demonstrated proficiency in SQL fundamentals, including data retrieval, filtering, joins, and database queries.

Java (Basic) Certificate – HackerRank ([Link](#))

July 2025

- Validated knowledge of core Java concepts including object-oriented programming, data types, and control structures.

Technology Job Simulation – Deloitte Australia ([Link](#))

June 2025

- Completed practical tasks involving software development and technology consulting scenarios in a simulated industry environment.

Google Cloud Arcade 2024 – Google Cloud

June – Dec 2024

- Gained hands-on experience with cloud services, APIs, deployments, and cloud-based application management through interactive labs.

Innovative Prototype Competition

June 2023

- Designed and presented a Peltier Module-Based Cooling System focused on energy-efficient cooling solutions.
